

Closing The Casket

Death Plus

Coffin full of skeletons I can't get it shut
Every day I'm thinkin to myself life is fucked
Make my body numb make me turn to dust
I just wanna go away to the place where I'm from
Got some blood leakin got so many fuckin cuts
So many scars they done took everything that I loved
Dead friends and they gone because of the drugs
Ain't no point in making new friends can't show no love
I can't rest with this shit all on my mind
Tried to learn how to trust but was denied
I don't wanna leave the house I don't wanna go outside
Don't got no reason and I don't got the time
Put my heart in this shit and stay on the grind
Only thing that makes me feel like it's alright
Don't nobody know bout all the demons locked inside
But Ima keep the casket closed yeah maybe another time
