

come after me

Death Plus

I used to walk around
In the streets where there ain't no sound
Drag my feet across the ground
Just to make my way to you
You don't ever wanna come around
Stay ashore as you watch me drown
You don't ever wanna come around
But you know what I want to do
I don't ever think you miss me, oh no
I don't really think you love me, oh no
Now I'm cold, where the fuck am I supposed to go?
Once again, I'll be walking down this road

Come after me
Won't you show me you love me?
I just don't believe it
No
