

Down

Death Plus

So you still think killing yourself would make everyone feel happier, eh?

Oh, I don't know. I guess you're right. I suppose it would have been better if I'd never been born at all

What'd you say?

I said I wish I'd never been born

Oh, you mustn't say things like that

Look into my eyes, I got a whole 'nother complexion

You know I hate my life and I hate that that's my message

And everybody knows by now just how I feel

And I might have to do something to show that it's real

Put the chemicals down into me

Put the chemicals down into me

Put the chemicals down into me

Put the chemicals down into me

Put the chemicals down into me

I know you feel like

I'm doing wrong, but to me

It just feels right
