

# Eye For An Eye

Death Plus

(Eye for an eye and tooth for a tooth  
Trade a lie for a lie and a truth for a truth  
Everybody tryna flex but they don't do it like I do  
Tell 'em I don't want nothing if they ain't got something new  
Yeah it's eye for an eye and tooth for a tooth  
Talk some shit about me I'll talk some shit about you  
I done been to hell and back I sold for my soul for this shit too...)

Eye for an eye and tooth for a tooth  
Trade a lie for a lie and a truth for a truth  
Everybody tryna flex but they don't do it like I do  
Tell 'em I don't want nothing if they ain't got something new  
Yeah it's eye for an eye and tooth for a tooth  
Talk some shit about me I'll talk some shit about you  
I done been to hell and back I sold for my soul for this shit too  
Fuck they talkin bout? I sacrifice like every day it's true

Yeah I'm reppin what I'm talkin 'bout  
Steppin up out the coffin  
Fresh out up out the fuckin garden now  
Take the 40 and I pour it out  
All my dead homies from below be comin out the ground  
Smokin out the fuckin pound  
Fatass blunts  
Each one we rolling up a ounce  
Pull my weapon got 'em runnin now  
Me and my crew we 'bout to hunt em down

They some fuckin fakes they be lying to themselves  
Talkin shit it ain't a thing to send yo ass straight down to hell  
Lemme see you work with the hand that I was dealt  
I don't see you doing nothing 'cept sittin on the shelf  
I don't wanna hear it I don't need your fuckin help  
I don't do this shit for no one I just do it for myself  
And I do it by myself  
Posted all alone and I'm always high as hell

Eye for an eye and tooth for a tooth  
Trade a lie for a lie and a truth for a truth  
Everybody tryna flex but they don't do it like I do  
Tell 'em I don't want nothing if they ain't got something new  
Yeah it's eye for an eye and tooth for a tooth  
Talk some shit about me I'll talk some shit about you  
I done been to hell and back I sold for my soul for this shit too  
Fuck they talkin bout? I sacrifice like every day it's true
