

Here's what I want to say  
And what I wanna do  
I wanna take you down  
I wanna make you move, for me  
You got them lies on your chest now  
You got all of those regrets now  
You gotta leave it all behind  
But how am I supposed to do that  
But how am I supposed to prove that  
I can be exactly what you need

Forget it, I know that this isn't for you  
Forget it, I know there's more that can afford you  
Forget it, cuz after everything I told you  
It would just make sense for you to leave

I don't wanna feel like this forever  
Think I'm gonna feel like this forever  
I don't wanna feel like this forever  
Emotions changin' like the fuckin' weather  
I don't wanna feel like this forever  
Think I'm gonna feel like this forever  
I don't wanna feel like this forever  
Emotions changin' like the fuckin' weather

I can never stay content with my life  
I can never stay content with my life

I don't wanna feel like this forever  
Think I'm gonna feel like this forever  
I don't wanna feel like this forever  
Emotions changin' like the fuckin' weather  
I don't wanna feel like this forever  
Think I'm gonna feel like this forever  
I don't wanna feel like this forever  
Emotions changin' like the fuckin' weather

You gotta leave it all behind  
But how am I supposed to do that  
But how am I supposed to prove that  
I can be exactly what you need
