

## i don't wanna hurt you (but i might have to)

Death Plus

Nigga that you love to hate  
Finna catch me a murder case  
Whip that nine to yo' dome  
Pass me the herringbone  
Straight from the underground  
With that thunderin', bumpin' sound  
Bumpin' on your stereo  
Bustas don't hear me, though

I remember you were looking at me  
Something kinda strange  
You said, "You got something that's on your mind  
And you don't want me to be  
Offended at all by the shit you're thinking and what you say"  
Girl, you're talking to the wrong one  
Girl, you know I wanna stay  
But I can't for long  
I don't care at all  
I don't wanna be happy  
I don't wanna be sad  
I don't want a thing  
I just wanna be  
In my own little world  
Feeling like I'm mad, girl  
I think I'm crazy  
You think so too  
Won't you be my baby?  
No, I don't want you  
Anymore  
At my door  
I see you looking at me  
I'm dead on the floor

I wanna die  
Every day  
I'm alive  
So I pray  
Someone take me away from this shit  
My life's a game  
I wanna die  
Every day  
I'm alive  
So I pray  
Someone take me away from this shit  
My life's a game
