

I Hate You

Death Plus

I been caught up in my own shit
I been fuckin' with my own clique
I been outside and it's snowin'
Can't wait to get away from the motion

I'm stuck here and I hate it
Like fuck it, I can't wait, shit's
Too fucked up and I'm waitin'
And I'm fucked up and I'm waitin' for you
I want you but can't take this
On top of the world, I'm sinking
I'm lost, you know that I'm thining
About you and I can't keep waiting for you

Where do you wanna go?
And where do you want me to stay?
I'll take a little bit more
And now I'll start fading away
I been around the world
Inside my mind and back
I been looking for you, girl
Hopin' it's come to pass
I coulda gave you the world
But I couldn't take off your mask
I fuckin' hate you, girl
And I never want you back
I coulda gave you the world
But I couldn't take off your mask
I fuckin' hate you, girl
And I never want you back
