

## Interlude

Death Plus

And you live with the fishes, let sleep in  
Lay down, let your body just weaken  
Face down in the sand that you breathe in  
Oh

And you live with the fishes, let sleep in  
Lay down, let your body just weaken  
Face down in the sand that you breathe in  
Isolated in the water that you sink in  
And you live with the fishes, let sleep in  
Lay down, let your body just weaken  
Face down in the sand that you breathe in  
Isolated in the water that you sink in
