

It Ain't Like That

Death Plus

Slaughter

You've been looking at me just like a ghost
Got me thinkin' 'bout tryna let you go
I'm lost and I don't got nowhere to go
Baby, I've been thinking we should spend some time alone
I hate everything around me
I've been thinking you should spend some time without me
I've been thinking every day that you doubt me
But you don't know what it's like without me

Project Infinite

I never wanted this to go
Like it did so long, for show
You got your arm up on my back
Tell me that you want me back
You're up on me with the sense
I've been going off again
It ain't like that, no
And I don't want nothing like that
But you've been acting all pretend
I've been reading all the signs
You look at me like you wanna die
But you don't know what that's like
