

# I've Been Looking Up At Night

Death Plus

When the moon's out, I been lookin' up at night  
It makes me feel something almost alive  
But not quite

I think I found it now, I'm better off being alone now  
It's something I don't wanna fight

I think I gotta go  
I think I'm better alone now  
Don't think you wanna know how  
It feels to be inside this hole now
