

# LONELY

Death Plus

It's frozen now, sleeping on the fucking ground

Now they fallin' down

Never catch me in the night, I'ma creep through  
Never see me but you know I fucking see you  
4-D everything, I can see through  
Bitch, it's Infinite, we be the fuckin' movement

So real is my word, so rare my type  
I'm sittin' on my throne 'cause I like to be alone  
No money, no love, no place to go  
Got clothes, got weed, got everything I need  
Got my blade, got my team, find me hanging in the trees
