

Look Right Through You

Death Plus

I'm so close to it
I might fall if I try to go to it
Lights off and I'm hardly moving
I know you like it when I look right through you
Like this

I'm in the ride
With some of the drugs tucked up by my side
You get in you die, let's go for a ride
I only like ridin' around when I'm high

I'm the only one that can do it like this
I'm the only one that can do it like this

I'm so close to it
I might fall if I try to go to it
Lights off and I'm hardly moving
I know you like it when I look right through you
