

Lost Picture

Death Plus

I held you close
Your ghost was in my room last night
There's this feeling I don't know and I could feel it inside
Where'd you go?
Let me know if you're coming back
I ain't comin' back to you tonight
Every night it comes creepin' slow
I don't ever have a reason, no
It just comes [?]
You never call me back
You always run from me

So colder when you're around
I really want you, no
I'm never happy, though

You were in my past
Just another lost picture
Nothing ever lasts
Just remember 'fore you miss it
I just wanna crash
Thinking no one's gonna miss me
Nothing ever lasts
Just remember 'fore you miss it
You were in my past
Just another lost picture
Nothing ever lasts
Just remember 'fore you miss it
I just wanna crash
Thinking no one's gonna miss me
Nothing ever lasts
Just remember 'fore you miss it
