

# Lost With You

Death Plus

I'm so lost when I'm with you  
She says she wanna die and I wanna die too  
When you're with me I be feeling brand new  
She says she love me and I know that it's true, yeah  
Got me feeling crazy, got me feeling so gone  
Yeah, I haven't felt this way in so long  
Baby it's love and I feel it so strong  
Feel it in my soul, let my butter go out

Every day I do just what I want, yeah  
Are you by my side, better look round  
Bitch I'm on that shit, I can't stop  
Now I'm finna make it to the top, yeah

I just wanna go so far  
Yeah, you see me shine just like a star  
In the sky just like a god  
In the sky, I'm gone  
I just wanna go, just wanna go  
I just wanna go, I wanna go so far with you

I'm so lost when I'm with you  
She says she wanna die and I wanna die too  
When you're with me I be feeling brand new  
She says she love me and I know that it's true, yeah  
Got me feeling crazy, got me feeling so gone  
Yeah, I haven't felt this way in so long  
Baby it's love and I feel it so strong  
Feel it in my soul, let my butter go out
