

Make You See

Death Plus

I just wanna make you see
That you're the only one I need
Everything is yours to keep
There's this thing I wanna say
But I can't let it out, it's just a part of me
You're the one that makes me feel like me
I got these drugs in me
They make me feel complete
They make me feel something
They make me feel nothing
Something like nothing and I love it
