

# Overwhelming

Death Plus

With the lights off, I'll be out there  
With my white tee on, in the dark, yeah  
I don't want it like you want that  
Open up, take a hit, and then I'm off it  
Ridin' 'round town, in the projects  
White kid from the sticks, you don't want shit  
Tired of talking now, what you talkin' bout?  
I don't know, I don't wanna think about it now

We go to that hidden place  
That we go to that hidden place  
You're so senseless  
(We go to that hidden place)  
Overwhelming  
(That we go to that hidden place)  
You're so senseless  
Overwhelming
