

Paranoia

Death Plus

Paranoia got me lookin' over my shoulder
I need something to help me but I don't know what
I need some weed, I need some pills to make me go numb
Feel like Ima die, that's alright, I say so what
And I dream some day that Ima be
Somewhere I can be myself and no one will bother me
I'm reclusive bitch, I'm used to it, been like this since my te
ens
Don't give a fuck, I just wanna make these songs and smoke my w
eed

I'ma do what I gotta do just so I can eat
Ima dog off the leash, no peace, grit my teeth
Ima bite, out my fuckin cage I'm on the streets
Best watch out cuz I'm on the hunt and I'm ready to feast
I don't give a fuck about nobody, I do what I want
When I wanna, it don't mean shit to take you to the swamp
Bitch I'm from the fuckin woods, you don't know 'bout where I'm
from
Leave yo body face down in the mud

Paranoia got me lookin' over my shoulder
I need something to help me but I don't know what
I need some weed, I need some pills to make me go numb
Feel like Ima die, that's alright, I say so what

Paranoia got me lookin' over my shoulder
I need something to help me but I don't know what
I need some weed, I need some pills to make me go numb
