

Passing On

Death Plus

Passing on babe, I know you see me now
I know you're wondering all the shit I think about
And why I do it, I don't really even know why
I know you want me but I wanna stay home tonight
I been thinkin' 'bout the past and my old life
Before I started to get out and do these shows like
Before I ever got out on the road
2013, yeah

You used to talk with your eyes up on me
You used to talk like you were all up on me
Now you're looking like you don't even want it
It's on your mind, I know you're thinking about it

I was trapped in a world without you
I was thinking that I don't even want you
Don't wanna be alive anymore
I'm looking down at myself on the floor

I'm picking up the pieces of a life I don't think I can fix
I'm lookin' at myself through your eyes and it makes me sick
I don't wanna think about it
I don't wanna think about you anymore
But I see you out there
Yeah, I think you see me on the floor, I'm

Passing on babe, I know you see me now
I know you're wondering all the shit I think about
And why I do it, I don't really even know why
I know you want me but I wanna stay home tonight
I been thinkin' 'bout the past and my old life
Before I started to get out and do these shows like
Before I ever got out on the road
2013 when I was still at home, right

I know you see me now
I know you're wondering all the shit I think about
And why I do it, I don't really even know why
I know you but I wanna stay home tonight
