Past Tense

Death Plus

You know I don't got an answer for everything you say
I've been on the brink of going insane
Like every fucking day
Lost up in my head now
Won't you walk away?
Lost up in my head
I just wish that you could stay
I've been on the brink of going away
Rotting inside of myself but I don't feel no pain
I've been inside of my head now, yeah
I'm a motherfucking letdown, I know, right?
Say you saw me on the freeway last night
[?] for the same shit as last time
See me [?] on the interstate
I been gone off of the drugs, they make me feel right
Ridin' round, make me feel like a cool kid
Even though I know that I'm still useless
I been feeling like the past tense
Death+, fuck the rest, it's nothing, bitch
