

# Streetlights

Death Plus

You're the one that makes me feel right  
I don't wanna come to real life  
Fell in love under the streetlights  
Come on, baby, won't you be mine?  
You're the one that makes me come to life  
Maybe someday I can make you mine  
All I know is what I feel inside  
Baby, let me know how you feel some time

I just wanna know what you feel inside  
Just another girl that don't pay me any mind  
Wanna get drugs, baby, wanna get high?  
Everything I do, I still want you all the time

You're the one that makes me feel right  
I don't wanna come to real life  
Fell in love under the streetlights  
Come on, baby, won't you be mine?  
You're the one that makes me come to life  
Maybe someday I can make you mine  
All I know is what I feel inside  
Baby, let me know how you feel some time
