Death Plus

[?] better watch yo step  
Sonic boom in my town [?]  
We smokin' bowls and goin' home without a [?]  
That shit we ain't got, but we never say why 'cause we know wha  
t's best  
Gotta earn our respect  
Say what I want and I do nothing less  
'Cause this life is a test  
I got smoke in my throat and a knife to my chest  
'Cause my life is a mess, my life is depression, my life is sus  
pense, my life's an event  
I'm tryin' to vent

If these words could kill, I'd bring the whole world to pieces  
If these words meant anything then this would be speechless
