

Take It All

Death Plus

Do you remember when you told me
That you would always be right by my side?
I think about the shit you told me
I think about this shit like all the time
This world ain't fair, you know
I got nowhere to go
I don't know if they wanna know
(Don't know if they wanna know)
I don't know

Put the knife into my chest
Wanna feel what it feels like to be dead
Put the bullet in my head
If you can't put the gun into my hands
Gotta learn what it means to feel again
(Gotta learn what it means to feel again)

Take it all
Let it go
Take it all
Let it go
