

Takes The Best Of Us

Death Plus

Ugly takes the best of us
I think I've had enough

Ugly takes the best of us
I think I've had enough with you
There ain't a reason to think of it different than what you expected, I told you in the first place
Even when [?]
I like when you really hurt
Way down I still hear your curse, oh no
Watch where you put things that you been gettin', you probably got someone that's tryin' to get it
They got the plan, you ain't listening
You fall asleep, they take everything quick

[?] while you're dying out, oh so slowly
I don't know what you talkin' about, or what you're looking for
but

Ugly takes the best of us
I think I've had enough with you
There ain't a reason to think of it different than what you expected, I told you in the first place
Even when [?]
I like when you really hurt
Way down I still hear your curse, oh no
Watch where you put things that you been gettin', you probably got someone that's tryin' to get it
They got the plan, you ain't listening
You fall asleep, they take everything quick
Project Infinite
