

## To The Ground

Death Plus

Riding out into the town  
Talking to myself about  
Everything you do to me, yeah  
Everything you talk about  
You're all I ever think about  
You're everything I dream about  
And I can't seem to get you out  
Of my head, this feeling got me  
Falling to the ground, yeah  
Riding out into the town  
Talking to myself about  
Everything you do to me, yeah  
Everything you talk about  
You're all I ever think about  
You're everything I dream about  
And I can't seem to get you out  
Of my head, this feeling got me  
Falling to the ground
