

Underneath

Death Plus

Yung Sludge

That knife inside of my heart
I think that I've played my part
I don't ever want to go on no more
I don't ever want to go

That knife inside of my heart
I think that I've played my part
I don't ever want to go on no more
I don't ever want to go on no more
I think I'm dying lately
Everybody seems to smile lately
And I feel so violated
And I feel so violated

I feel like I on want none
I on want you
I just wanna go back to my [?]
To the [?] back where I found you
I just wanna die, go back to my fuckin' room

I just wanna feel the waves come crush me
I just wanna let the rocks pierce into me
I just wanna jump into the open
I just wanna jump into the underneath
I just wanna feel the waves come crush me
I just wanna let the rocks pierce into me
I just wanna jump into the open
I just wanna jump into the underneath

I feel like I on want none
I on want you
I just wanna go back to my [?]
To the [?] back where I found you
I just wanna die, go back to my fuckin' room

That knife inside of my heart
I think that I've played my part
I don't ever want to go on no more
I don't ever want to go on no more
I think I'm dying lately
Everybody seems to smile lately
And I feel so violated
And I feel so violated
