

What To Do

Death Plus

You were tryna get through (get through), yeah you
I just wanna see you move, I don't know what to do
It's you, girl, you don't know what you do, girl

I been thinking 'bout the past too much, that's what's up
I been lost up in my thoughts backstage at the club
Got money in my pockets, got a drink up in the cup
Got the drugs on me and the switchblade tucked

I been thinking 'bout you, girl
You don't know what you do, girl
I don't know what to do to you
I just don't wanna lose you, girl

You were tryna get through (get through), yeah you
I just wanna see you move, I don't know what to do
It's you, girl, you don't know what you do, girl

Yeah, I don't know what to do with you
Project Infinite
I don't know what to do
