

# When You Find Me

Death Plus

When you find me I will probably already be dead  
In the ocean sinking, find me buried in the sand  
I'm on the deep end, baby, you don't really wanna know  
I made so many fucking mistakes, I'll never learn

And they say hell has an echo  
I'll never let go  
I'm by the river [?]  
Follow me to the unknown, baby  
Follow me to the unknown, baby  
Got it right  
Got it right now, let's go  
I know we're both gone, I know we're both fucking mental  
Follow me to the unknown, baby  
Follow me to the end or we'll never know
