

Where Will I Go?

Death Plus

Where will I go when I die? I don't know why
I've got this feeling that I can't control tonight
I wanna do what I wanna do and I do it right
I'm getting through to you, I see you when [?]
When we're together, your opinions don't matter
Only just facts, you don't ever think ever
You're just going by what you see

You're just lonely
I'm just hoping
Thoughts turn over
And they turn slowly
Your voice rolls over me
I'm hardly noticing
You don't know me
The silence showed me
(Silence showed me)
