

While You Were Talking

Death Plus

While you were talkin', I was watching you
I saw the way you turn your head when you laugh too
Observing everything that you do
And I'm going fucking crazy

And while you're looking at me, I'll be here
In my own little world, yeah I'm out there
I been feeling like I'm trapped in here
And my time's so fucking wasted

Thinkin' 'bout it and it don't make sense
Talkin' to you and you want to just be friends
That's the way that you're letting it end
And I'm losing all my patience

I look around
But you're never here
(No, no, no)
I walk around
And I don't ever see you
