

Wilderness

Death Plus

Yung Death plussed up in the wilderness
In the trenches, where I won't forget
Every day with you while you were listening
To everything I said, to everything I sing
I have no love inside me
You don't have to remind me
Hope happiness come find me
Hope I don't die before I get

Better for you, baby, I'm trying
You can give it your best but it's hard, babe
You know I could give a fuck
Less time is nothing to me

Wild, see me in the trees out there
I been living in this for about a year
Psychotic, I don't have no fears
Except myself
It's so clear
(I wanna die)
Wild, see me in the trees out there
I been living in this world for about a year
