Death Threat

I guess you thought you had us figured out
You know our kind - you know what we're about
But you don't know the shit that we've been through
The pain we felt - we're tried and true
So quick to judge - we're not like you
And to your world - we say f**k YOU
So quick to judge - we're not like you
And to your world - we say f**k YOU
Who the f**k are - to judge me
It's my life and I'll do as I please
Answer to no one - conform to nothing
I am who I am from years of suffering
Hardcore to the day that I die
Hardcore - it comes from inside
So quick to judge - because we're not like you
And to your world - we say f**k YOU
We'll never be like you
f**k your world and f**k YOU TOO
