

## Poisoned Minds

### Death Threat

They plot, the scheme, conspire to destroy our american dream.  
No respect for life and prepare to make the ultimate sacrifice.  
Their own lifes for thousands to die.  
Their poisoned minds is our world's demise.  
This is more than just a sign of the times.  
This shit is happening right before our eyes.  
It's going down, just take a look around.  
We're f\*\*ked, no turning back now.  
The end of time,  
Eyes wide shut as we watch the signs.  
You lies, our demise, silence after helpless cries.  
They're living in our cities.  
They're walking down our street.  
Spreading their poison. brainwashing,  
Brainwashing the weak.  
By the time it happens it will be too late.  
You got to nip it in the butt or you have sealed our fate.  
They're living in our cities.  
They're walking down our streets. spreading their poison.  
Brainwashing, brainwashing the weak.
