

Genetic Reconstruction

Death

Extending a life with total resistance
To fatal disease, future methods of science

Replacing what is real by using technology
Population control, selecting those who will breed
A specific type of form chosen for the unborn
A mind without emotion
Progressive anatomy

Genetic Reconstruction
Evolution in Production

Producing a race of human machines
A new age of existence the world will see

Replacing what is real by using technology
Population control, selecting those who will breed
A specific type of form chosen for the unborn
A mind without emotion
Progressive anatomy

Genetic Reconstruction
Evolution in Production
