

Crazy

DeathbyRomy

Finish me last night, I want more forever
Cold hands on my body in the coldest weather
Fell in love last night, swear I'm yours forever
'Cause just like the knife in my back, we are one and the same

When you're close, our bodies in flame
Hold me tighter as ever if feeling comes one in my brain

'Cause you're in my blood, my blood is the stars
Everything's nothing and nothing is ours
You're in my blood, my blood is the stars
Everything's nothing and nothing is ours

One night
Lasts forever

My baby makes me crazy, makes me crazy
Makes me lose my mind
My baby makes me crazy, makes me crazy
Makes me lose my mind

Sell me your soul, you won't regret it
My love's a drug, I know you want it
You're a fiend, I'm mean but I'm sweet when I want
'Cause just like the knife in my back, we are one and the same

When you're close, our bodies in flame
Hold me tighter as ever if feeling comes one in my brain

'Cause you're in my blood, my blood is the stars
Everything's nothing and nothing is ours
You're in my blood, my blood is the stars
Everything's nothing and nothing is ours

My baby makes me crazy, makes me crazy
Makes me lose my mind
My baby makes me crazy, makes me crazy
Makes me lose my mind

One night
Lasts forever
