

Day I Die

DeathbyRomy

Love is god
For the freaks
We're a mess
But we're sweet
Holy hell
Crooks and thieves
We don't pray
On our knees

Wild blood, baby, I'm a demon
Running from my demons, tryna sleep at night
Light me up, I'm tryna feel something
Just wanna feel something before I die

Powerless until I feel your pain
You got something sweet and I want it in my veins
Take all of me, make me feel again
You got something sick
And I know I'll always want it till the day I die

Kerosine
Lemonade
Like Gasoline
I love the taste
Watch me burn
Up in flames
Bring me to life
And back again
Until the day I die
You got something sick
And I know I'll always want it till the day I die

Watching you
Watching me
We're here to die
We're free to bleed
I love your taste
It's ecstasy
You're so fucked up
Boy, you're just like me

Wild blood, baby, I'm a demon
Running from my demons, tryna sleep at night
Light me up, I'm tryna feel something
Just wanna feel something before I die

Powerless until I feel your pain
You got something sweet and I want it in my veins
Take all of me, make me feel again
You got something sick
And I know I'll always want it till the day I die

Kerosine
Lemonade
Like Gasoline
I love the taste
Watch me burn

Up in flames
Bring me to life
And back again
Until the day I die
You got something sick
And I know I'll always want it till the day I die

Kerosine
Lemonade
Like Gasoline
Till the day I die
Lemonade
You got something sick
And I know I'll always want it till the day I
Die, die, die, die, die
D-d-d-d, die, die, die, die
Baby, die, die, die, die, die
Know I'm gonna love you until the day I die
