

Frozen

DeathbyRomy

My lover came from hell
He was my baby boy
Beautiful like august skies
Lit up the whole room with light
Oh he makes me come alive
I need you by my side
For more than just tonight
U make me come alive
I need u in my life
I want you by my side
U make me feel alright
I never wanna die
While you are by my side

U make me feel alive
And every single night
My dreams are where we hide
Cus you left me for dead
Said it was pretend
U never meant it babe
U never could behave
When I needed u most
U hid just like a ghost
U made me feel alone
U left u were my home
And now I burn alone

I am my only home
But even as I moan
I wish I'm not alone
I cry through day and night
My eyes are never dry
I miss u in my life
U were my love and light
And now I wanna die
I been here all my life
U were the light I'm dark
But now I gotta run
My screams louder than guns
I thought u were the one
My face is turning numb
My body's cold
And now I dance alone

My ghost my bones we are alike we fly at night
And even when I feel alive my soul is black like midnight snacks I craved yo
ur love but now it's gone
And I'm alone
And I'm alone
And I'm alone
U were my home
U were my bones
U were the one
I swore it so
So cold my body's frozen as I stand alone I feel taken back by you
So cold my body's frozen as I stand alone I feel taken back by you
So cold my body's frozen as I stand alone I feel taken back by you

So cold my body's frozen as I stand alone I feel taken back by you
I still want you too
