DeathbyRomy

I see red when the room pitch black  
Switch blade tongue got a blood lust bad  
Sink my teeth hear your neck go snap  
Hell hound off the leash and this bitch bite back

I see red when the room pitch black  
Switch blade tongue got a blood lust bad  
Sign my name in your chest sign that  
Hellhound off the leash and this bitch bite back

Once I start I can't stop wind me up and let me go  
I see red when the room pitch black  
Switch blade tongue got a blood lust bad  
Sink my teeth hear your neck go snap  
Hell hound off the leash and this bitch bite back

Another loom of finest silk  
Put me in a foul mood now go in for the kill  
Switch up fast fall in like quick sand  
Now I'm cross yeah you made me mad

Sickly sweet be my sacrificial lamb  
Devils child got a death note in my hand  
Bloods been spilled and the skins been shed  
Lead you to the slaughter make you wish that you were dead

Cynical  
Sharp teeth play sweet I'm a cannibal  
I fear off flesh like an animal  
I leave my victims critical

Is it blood or lipstick  
Break skin my kiss is like an ice pick  
So sick and I don't know why I'm into it  
But I like that  
I'm you're nightmare  
You can't fight back

Once I start I can't stop wind me up and let me go  
I see red when the room pitch black  
Switch blade tongue got a blood lust bad
