

Lovesick

DeathbyRomy

Come on by
I want you
I'm in love with a thought, it's true
I see us there, when I close my eyes
You don't know yet, but you blow my mind

I'm lovesick
The thought makes me really want it
I'm lovesick
And I really love it when you look my way
My brain melts
And I just lose it
I'm lovesick

I'm lovesick
But I feel like I might vomit
I'm lovesick
I love you but you don't know it
If I tell you I really just might blow it
I'm lovesick

You don't even know my name
But the thought of you makes me insane
Sick addiction, I'm to blame
Fill the void
Won't you ease my pain

I'm lovesick
The thought makes me really want it
I'm lovesick
And I really love it when you look my way
My brain melts
And I just lose it
I'm lovesick

I'm lovesick
But I feel like I might vomit
I'm lovesick
I love you but you don't know it
If I tell you I really just might blow it
I'm lovesick

Sugar honey baby
You're sublime
Got me thinkin' 'bout you
Almost all the time
Though we haven't met yet
You've been on my mind
I've been fantasizing
Just to pass the time

Sugar honey baby
You're sublime
Got me thinkin' 'bout you
Almost all the time
Though we haven't met yet
You've been on my mind

I've been fantasizing
Just to pass the time

I'm lovesick
But I feel like I might vomit
I'm lovesick
I love you but you don't know it
If I tell you I really just might blow it
I'm lovesick

I'm lovesick
But I feel like I might vomit
I'm lovesick
I love you but you don't know it
If I tell you I really just might blow it
I'm lovesick
