

Release Yourself

DeathbyRomy

Wake up, the fires' gonna get you
You're stuck but only you can save you
Runnin in circles only hurts you
Stand up, you need to find a breakthrough
You've dug your grave but will you fall in
Keep playin' games you know you won't win
No better day than now to begin
I can't just keep watchin' you fallin'

Lay back, 'cause you need that
Sit down, on your knees, baby
Listen, know I got you
Relax, cut yourself off

Release yourself
From this prison
Get out of your mind
And start living

You're only fighting with yourself, love
I think it's time you tell yourself stop
You've only lived a bit of life, love
There's so much more, you can't give up
I know you're tired and you are hurting
Your brain is sore but keep searching
Your heart is strong, I feel it burning
This life is yours and you're deserving

Lay back, 'cause you need that
Sit down, on your knees, baby
Listen, know I got you
Relax, cut yourself off

Release yourself
From this prison
Get out of your mind
And start living

Caught in the shadows
Stuck in old ways
So many patterns
That you must break

Caught in the shadows
Stuck in old ways
So many patterns
That you must break

Caught in the shadows
Stuck in old waves
So many patterns
That you must break

Release yourself
From this prison
Get out of your mind
And start living

Release yourself
From this prison
Get out of your mind
And start living
