

Tell me was it easy  
Sitting watching me bleed  
Waiting till I get back up  
Call yourself a trophy  
But what was I winning?  
Other than your tainted love

Wait  
Who are you to play the Saint?  
Crucify my one mistake  
All you ever do is take from me take from me  
Wait  
Who are you to run away?  
Go and leave me with the blame  
All you ever do is take from me take from me  
Precious time I wasted giving you my whole life, yeah I'd hate to loose me t  
o  
I was blinded by the way you needed me that's how I knew I needed you

You were never honest  
But I'd go along with  
Everything you said I'd done  
Guess I made it simple  
Let you play the victim  
What we had was never love

Wait  
Who are you to play the Saint?  
Crucify my one mistake  
All you ever do is take from me take from me  
Wait  
Who are you to run away?  
Go and leave me with the blame  
All you ever do is take from me take from me  
Precious time I wasted giving you my whole life, yeah I'd hate to loose me t  
o  
I was blinded by the way you needed me that's how I knew I needed you

Trying to make love instead of war  
Set myself on fire to keep you warm  
We relied on needing me to burn  
Find it funny how you think you're blameless  
Narcissistic you're preoccupied  
Sure you're perfect when you close your eyes  
Do what ever helps you sleep at night

Wait  
Who are you to play the Saint?  
Crucify my one mistake  
All you ever do is take from me take from me  
Wait  
Who are you to run away?  
Go and leave me with the blame  
All you ever do is take from me take from me
