

Wolf

DeathbyRomy

I been on I stay on all night
Ooh, I want this feeling for life
I been on I stay on all night
Ooh, I want this feeling for life
I want this feeling for life
Ooh, I want this feeling for life

Still feel like a target I'm running with fear
Still feel like I'm haunted I swallow my tears
I'm running with wolves and we're vicious it's clear
I'm running, I'm running, I'm running, aye

I only live in the moment
I'm way too fast for the static
I wait all night for the moon's kiss
Dance in moonlight I've been off it

I been on I stay on all night
Ooh, I want this feeling for life
I been on I stay on all night
Ooh, I want this feeling for life
I want this feeling for life
Ooh, I want this feeling for life

Got ghosts from my past they still listening near
They come to the call of my cries in the night
The wolves cry together we're one and you'll hear
We're coming, we're coming, we're coming

I only live in the moment
I'm way too fast for the static
I wait all night for the moons kiss
Dance in moonlight I've been off it

I been on I stay on all night
Ooh, I want this feeling for life
I been on I stay on all night
Ooh, I want this feeling for life
I want this feeling for life
Ooh, I want this feeling for life

(When the wolf cries...)
