

# 5 O'Clock

Deb Never

It's 5 o'clock somewhere  
So meet me in the bathroom of  
The bar where all our time gets lost  
We'll ride so baby come on  
Let's fly to go nowhere  
The sky is barely out of touch  
Falling till we reach the sun  
We're high so baby come on

Long hair with a pretty face  
I bet you look just like your mother  
Wearing sweet perfume like Novocain  
You know it always puts me under

So turn the music loud  
Can't hear you say  
It's not who you are  
You're not this way  
But on occasions  
Powdered face  
Can't make you stay  
But if you change your mind up

It's 5 o'clock somewhere  
So meet me in the bathroom of  
The bar where all our time gets lost  
We'll ride so baby come on  
Let's fly to go nowhere  
The sky is barely out of touch  
Falling till we reach the sun  
We're high so baby come on

Where do we start  
Kiss in the dark  
And if u still don't know my name  
Proceed with caution before you talk  
Cause here we are intoxicated

I don't mean to stumble in your life distorted  
I don't need to close my eyes to feel euphoric

It's 5 o'clock somewhere  
So meet me in the bathroom of  
The bar where all our time gets lost  
We'll ride so baby come on  
Let's fly to go nowhere  
The sky is barely out of touch  
Falling till we reach the sun  
We're high so baby come on

We're high so baby come on  
We're high so baby come on
