Coca Cola

Deb Never

Last night my friends kept calling
I never check my phone
Sometimes I lose track every day seems like another month
Sometimes I stay in all day
I never leave my home
Sometimes if I get lucky I can see the sun at dawn

Haven't slept in 48 hours
The thought of you is eating my brain
I'm love drunk must be something in the water
On my knees I'll do what you say

Make a move before the nights over
I don't mean to hesitate but you make me so
Nervous I'm not better off when I'm sober
I need one more hit to keep me awake

You got me lifted up
And I don't wanna stop
You got me lifted up
And I don't wanna stop
You got me lifted up
And I don't wanna stop
You got me lifted up
And I don't wanna stop

So afraid to break even though it feels so good
I hate the way it taste bittersweet comes after you
All bent out of shape try to keep my cool
Bordem breeds psychosis that's why I've been acting like this

Need to make a move before the nights over
I don't mean to hesitate but you make me so
Nervous I'm not better off when I'm sober
I need one more hit to keep me awake

You got me lifted up
And I don't wanna stop
You got me lifted up
And I don't wanna stop
You got me lifted up
And I don't wanna stop
You got me lifted up
And I don't wanna stop

Haven't slept in 48 hours
The thought of you is eating my brain
I'm love drunk must be something in the water
On my knees I'll do what you say
