

Dope Sick

Deb Never

Don't wanna let you go
You left me with the ghosts
You left me right in cold again
You know that you're my only friend

Tying up [?]
Dripping on my chest
You know I'm a mess
You didn't have to guess

Tell me that you want me
I know that's a lie
Tell me that you need me
But I'm alone at night

Don't wanna let you go
You left me with the ghosts
You left me right in cold again
You know that you're my only friend

Don't wanna see you cry
I'm staying up all night
I wanna hold you tight
Until you say goodbye

Need you in, like my medicine
Got me sick, taking on my mind

I keep you up at night
But I'm the one you call a friend
And I know what you like
It's good if I don't see you again

Cold
You left me with your ghosts
You left me right in cold again
You know that you're my only friend

Don't wanna see you cry
I'm staying up all night
I wanna hold you tight
Until you say goodbye

Don't wanna see you cry
It's good if I don't see you again
