

# In The Night

Deb Never

You had me wait outside like that  
All that you found was in my hands  
You had me waste my time like that  
Swallow your pride, give me one chance  
Even when we made amends  
I find myself, sinking in  
The mess we're in, I'm losing my whole mind  
Trying to find, the reason why

Oh, in the night  
Oh, in the night  
Oh, in the night  
I'll come alive

Keep me lie awake at night  
Think of words to say goodbye (Bye)  
And if it hurts then won't I see you in my dreams?  
If I sleep I hope I never breathe  
In the end, not worth the try  
Distance is not worth the drive  
And I'll just meet you when the dust settles  
Meet you when the dust settles

Oh, in the night  
Oh, in the night  
Oh, in the night  
I'll come alive  
Oh in the night  
Oh in the night  
Oh in the night  
I'll come alive
