

Iced out  
Heart soda pop  
You talk  
Royal like your Tenenbaum  
You say  
Been working since 11th grade  
New fame  
You wanna be a star

Like Rick Riccardo  
On TV like Rocko  
Drippin with bravado  
Private to Milano  
Runway supermodel  
Quiet on the walk home  
I just hope you say what you need to say

I just hope you say what you wanna say  
I just hope you say what you need to say  
1990 Chardeaux  
Know you keep shit bottled  
I just hope you say what you need to say

Late nights (late nights we)  
Summer 9th of July we talked  
Blurred lines, the birds and bees, all of the above  
So drop your cool for just a little  
Show me who you are  
But you wanna be a star

And if there's something going on  
Would you tell me about your days  
I'll be waiting for your call  
(Call me when you want, call me when you want)  
I'm just a dial up away

I just hope you say what you wanna say  
I just hope you say what you need to say

Know you keep shit bottled  
I just hope you say what you need to say
