

## Someone Else

Deb Never

The sparkle in your eyes  
Look like all the stars  
Do we see the same moon when you look up?  
I can rob you of your time  
But still can't break in your complicated mind  
Oh my, oh my

Don't want you to fall in  
Don't want you to fall in love

Don't you carry on  
Even though we're worlds apart  
Darling, I can play your favorite song  
Hollow out your room  
Stand by the fire  
Where we slow dance through our darkest nights

Don't want you to fall in  
Don't want you to fall in love

With someone else  
With someone else  
With someone else

With someone else  
With someone else  
With someone else

I'm painting the skies red  
So don't close your eyes, babe  
'Cause even inside I can feel it pouring  
Drown in my own bed  
Drown in the words said  
How selfish am I?  
Don't want you to fall in love

With someone else  
With someone else  
With someone else

With someone else  
With someone else  
With someone else
