

# Dance All Night

DeBarge

My baby's into the rhythm  
She says she can't do without it  
All that she does is to the beat  
Upstairs the radio's playing  
I cannot hear what she's saying  
Over the sound of slightly innocent feet

So I take her by the hand (whoa, oh)  
Then I lead her to the floor (whoa, oh)  
With the music in my head, we're on a roll  
You suppose it could be (whoa, oh)  
Because she really wants me (whoa, oh)  
With the feeling that I have I'd like to know, oh

Dance all night  
Live and love in the party life  
Dance all night  
Till I make you mine

Dance all night  
Live and love in the party life  
Dance all night  
Till I make you mine

Up, down, in and around it  
She's got a fever about it  
And what she does, she likes to lead  
I tell her, "baby, no problem"  
You got it all hands down and  
The survey says that you're all I need

So I take her by the hand (whoa, oh)  
Then I lead her to the floor (whoa, oh)  
With the music in my head, we're on a roll  
I was thinking it can be (whoa, oh)  
Because she really wants me (whoa, oh)  
And with the feeling that I need, I got to know, oh

Dance all night (ah, baby)  
Live and love in the party life  
Dance all night  
Till I make you mine

Dance all night (ah, baby)  
Live and love in the party life  
Dance all night (ah, baby)  
Till I make you mine

Dance all night  
Dance all night  
Till I make you mine

So I take her by the hand (whoa, oh)  
And then I lead her to the floor (whoa, oh)  
With the music in my head, we're on a roll  
You suppose it could be (whoa, oh)  
Because she really wants me (whoa, oh)

And with the feeling that I have, we're on a roll, oh
