It's Getting Stronger

DeBarge

Can't stop this feeling that I feel inside
I'm bubbling over and I just can't hide
Such a sweet sensation has come over me
In your arms for sure is where I want to be

My doubts and fears all seem to disappear
When I'm with you I feel safe and secure
Never dreamt this moment would come to be
Where I'm not just loving, someone's really loving me

It's getting stronger baby everyday (stronger)
Can't hold out longer got to break away (strong)
It's getting stronger baby everyday (stronger)
Can't hold out longer got to break away (strong)

I know you love me 'cause you show me how
You never turn me down that's not your style
I can't stop this feeling that's come over me
I'm so proud that our love's reached it's destiny

It took some time but hey we made it there
We've opened up our hearts have much to share
Never dreamt this moment would come to be
Where I'm not just loving, someone's really loving me

Such a sweet sensation has come over me
In your arms for sure is where I want to be

Never dreamt this moment would come to be
Where I'm not just loving, someone's loving me
Such a sweet sensation has come over me
In your arms for sure is where I wanna be

It's getting stronger baby everyday (can't hold out longer)
Can't hold out longer got to break away (it's getting stronger and stronger)
It's getting stronger baby everyday (can't hold out longer)
Can't hold out longer got to break away

It's building stronger ha ha
As the days go by ha ha
I can't hold out longer ha ha
As the days go by ha ha

Such a sweet sensation has come over me
Never dreamt this moment would come to be (stronger)
Can't hold out longer

I can't stop this feeling that's come over me
I'm so proud that our love's reached it's destiny
Stronger
Can't hold much longer
It's getting stronger and stronger and stronger
Can't hold much longer
