Prime Time

DeBarge

When everybody is going home
All across the town tonight
You'll hear me knocking upon your door
Outta sight waiting in the shadows
Ooh, I can taste the fun
We can have tonight, alright
And it's a serious party
Ooh babe, we got it right
Come start me, let's party
It takes a little application
Of principles known to all
Find a confabulation
And just have a ball

Prime time
People are feeling better
High time they did
Prime time
Baby let's get together
Cause I'm convinced
It's prime time
Couldn't get any better
Fine time in
Prime time, baby let's get together
High time again

I'm like a wave on the ocean girl
Hungry for the shore somewhere
You've got my energy going
Heating up, looking for connection
Ooh, and it's you for me
Magnet pulling steel, ooh baby
And it's the sweetest emotion
Ooh baby, the way I feel
You've got me, can't stop me

Baby the music's pumping
You and I dressed to kill
Darling our hearts are jumping
And we can't stand still

Prime time
People are feeling better
High time they did
Prime time
Baby let's get together
'Cause I'm convinced
It's prime time
Couldn't get any better
Fine time in
Prime time, baby let's get together
High time again

Baby the music's pumping
You and I dressed to kill
Darling our hearts are jumping
And we can't stand still

Prime time
People are feeling better
High time they did
Prime time
Baby let's get together
'Cause I'm convinced
It's prime time
Couldn't get any better
Fine time in
Prime time, baby let's get together
High time again

Prime time
People are feeling better
High time they did
Prime time
Baby let's get together
'Cause I'm convinced
It's prime time
Couldn't get any better
Fine time in
Prime time, baby let's get together
High time again
